To the people that publish CARTOONS Magazine: Your magazine is great! In all the issues I have, there isn't one person that has written to you from Louisville, Kentucky. I just want you to know that we like CARTOONS just as much as everyone else! KRASS & BERNIE alone, has *Mad* and *Cracked* beat by a mile. I really liked BUILDING A SUPER TUFF VAN, KILLER CARS, and SKATE BORED... By the way, when are you going to put Shawn Kerri on the inside cover and tell how she got started in the business?... Try to get more 4x4's in future issues. I'd appreciate it.

Robert Hall
Louisville, Kentucky

—If we put Shawn Kerri's bio in this mag, it would definitely be rated G, P, R AND Z.

I've been reading your magazine for years. Top Stuff! Keep it up! KRASS & BERNIE tell it like it is. Trosley sure is an artist! I enjoyed your HOW TO DRAW CARS and VANS series, but what about engines? I'm sure I am not alone in wanting some advice on, engine-drawing!... How about some Volkswagens? Now I know they're not up there with the Chevys, Mopars, etc., but you gotta admit they are in a class all their own. From what I've seen, they can give those Trans Ams and 'Vettes a run for their money. And with gas going up, they're cheaper to run!... I don't care much for your IRON-ONS—not unless they're cartoons, and not just heads and bodies of people and animals. I got a real kick out of your February

'80 issue's EXPERIMENTAL DEPARTMENT. I'm not into big rigs, but that one sure hit me funny... Well, I've said my bit. Keep up the good work... and fire HOGG RYDER.

Trace Are Race
Victoria, British Columbia

—"Oh give me a home, where the 88mm Biral cylinders roam, where the EMPI valve covers and BERG sump and full-flow filter/cooler adapters play! Where seldom is heard, a discouraging word (from the FORTUNED competition exhaust with a megaphone "stinger") and the WEBER 40 DCN carburetors are not cloudy all day!"

To all of the people who think Chevys are the pits—I won't mention any names—like the "Two Mopar Lovers From The Motor City, Detroit," here is my message to you: PHHHHTTTTT!!! Chevys have always ruled and will forever! They've passed all other car companies in sales. After all, who would buy a Fairmont when you can have a 'Vette? Ford hasn't made anything decent since the '30's and the late-model Mustangs. The new ones are BLECH! CHEVYS FOREVER!

Someone who knows the best,
Jeff Dannen
Lennox, South Dakota

—Someone who knows the best WHAT?!!

I thought I'd write in about Jim Conder of Louisville, Kentucky. His picture of the old Ford 4x4 truck, in SIDE SHOW, was a really good drawing! He said "Old Fords Never Die, they just get tuffer"! He's right! Could you please put more old Fords, like Mustangs, Torino GT's and Shelbys in the mag? Keep up the good work!

Brian "The Ford Freak" Syelove
Elwood, Indiana

—Old Ford Freaks never die, either. They just get senile!

Hello, all you artist-type people. I started collecting your mag when I was nine years old. Since then, I have accumulated a small fortune of fourteen of 'em! My very, very favorite mag is—and don't cry—Stock Car Magazine. After that, it's—you guessed it—Playboy! No, I'm just joshin' ya! It's CARtoons. Tell Trosley that ol' KRASS & BERNIE is tops! One of my friends also likes collecting your mag. When I get older, I plan to become a stock car driver and get rich, blow a lot of engines, and kiss a lot of sexy women. If that fails, I'll become an artist and I just might decide to come down to L.A. AND I just might give you guys a jingle. So stay alert

NOTE

It seems that many of the entries to "Side Show" are not really what one might call Van Murals. That was the original idea.

Many readers are sending in drawings of cars. So, since that seems to be the general drift, we are as of this issue, changing the SIDE SHOW feature to a new feature. In the future, rather than sending art which is many times not really what the original Van Mural idea was about, let's see your drawing of a car.

It could be any car, real or right from your head. It could be your idea of what you might do if you had the bread and the time to customize your favorite set of wheels. It could be a complete fantasy machine, something you might just imagine.

There's no limit to what you can do with this feature, so let's see what goes around inside YOUR head.

All entries should be mailed to:
MY WHEELS—CARtoons Magazine
8490 Sunset Blvd.
Los Angeles, CA 90069

and don't eat funnylooking food! Be talkin' to ya later!

Jeff (J.J.) Johnson

—It's nice to know our readers have taste. I'll let you in on a secret, though. If you want to be an artist, then you'll have to be prepared to have pies thrown in your face a lot by people who don't appreciate your work, get rejected by almost everyone because they never heard of you, starve, dig ditches to pay your rent, turn red when sexy women run away from you giggling, let your girlfriends pay for dates, and have artistic temper tantrums, thereby alienating all your friends! I think being a stock car driver sounds a lot more rewarding!

CARtoons is the best! KRASS & BERNIE are great. Let's see some more of Grube and Hodsworth. I think they are exceptional artists also... Fords, Chevys, Mopars, and AMC's are all great as long as they're muscle cars, but '66 4-4-2 four-speeds are the best... Trans Ams and '73-'80 Z-28's are not, in my opinion, muscle cars... There are a lot of selfish people who think that your artists have nothing better to do than draw pictures of their cars. Why don't your readers lay off! Would you ask Keith Black to do a free tune-up on your car?... I am a non-professional cartoonist and I think SIDE SHOW is an excellent feature.

John T. Huber
Detroit, Michigan

—You're absolutely and positively right, John! Most of the experts date the beginning of "muscle car mania" with the '64 GTO, and mark its end with the '71 Hemi-engined Dodge and Plymouths! R.I.P.

Well, guys, I've got some good news and some bad news for ya'. First the good news. Ya' got yourself a great magazine! Keep up the good work. Now for the bad news. "Great" does not, by any means, mean perfect. I think that it is great that someone has a place in a popular magazine for people to have their names and addresses put down. However, you seem to have sluffed off a bit. I don't know how or why, but you managed to put my name on an Illinois address! I

don't really mind that you didn't put my name on my address, and I don't really mind you leaving off my age, but the thing that *does* bother me, is that you put my name on a flatlander's address! A flatlander, by the way, is somebody who has Illinois license plates and travels across the Wisconsin state line! Ya' got a great magazine anyway.

Scott Olson
Darien, Wisconsin

—It must have been before Corresponding Erica got her contact lenses!

Gentlemen. I write to compliment CORRESPONDING ERICA. It has gotten me a lot of replies. However, the real reason is that I have found a lady who means a lot to me, so, I figured you people were the ones to thank! THANK YOU!

John Ballard
Newport, Tennessee

P.S. Teresa N. says Thanks, too!

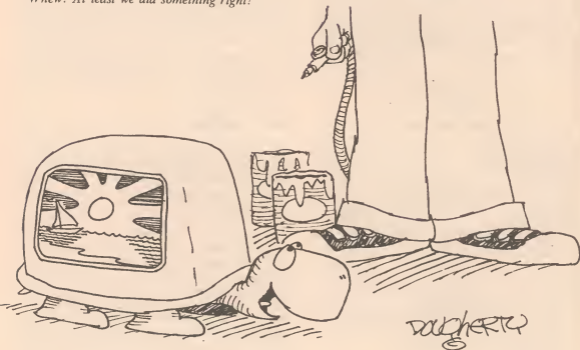

—Whew! At least we did something right!

Hi, CARTOONS! Trosley does an excellent job with KRASS & BERNIE. The thing I am wondering is how does Trosley find time to write it if he's writing for so many other mags. Why don't you ask him to do some IRON-ONS for you? The last one needed some "body" . . . Keep up the great work and get some Chevys in the mag, 'cause I think there are more Chevy freaks than Ford freaks!

Kacy
Calgary, Alberta

P.S. Print this so I can prove to my brother that you guys don't make up the letters!

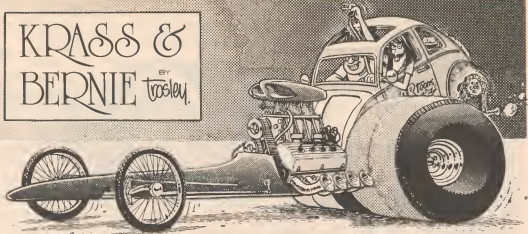

—Some people are just not very trusting! I'm really hurt! By the way, IF YOU WANT YOUR LETTERS TO APPEAR IN THIS COLUMN, GANG, WRITE SO I CAN READ THEM! That means you, Kacy!

HOW TO DRAW:

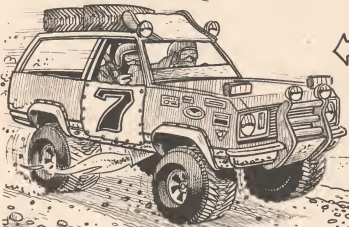

OFF ROADIES

WHAT IS AN OFF ROADIE?

IT HELPS TO KNOW WHAT SOMETHIN'S ABOUT BEFORE YOU TRY TO DRAW IT. OFF ROAD VEHICLES DO **JUST THAT**—GO OFF THE ROAD ON ALL TYPES OF TERRAIN SO THEY'RE EQUIPPED TO **TAKE IT**. JUST LOOK AT ALL THE STUFF YOU NEED TO GO OFF ROADIN'!

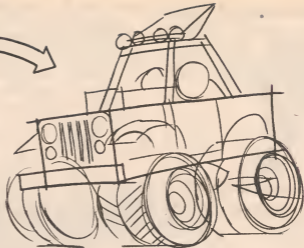

LET'S START WITH SOMETHIN' REAL BORY LIKE A DODGE TRAIL DUSTER. GET THE BOX PROPORTIONS RIGHT THEN START BREAKING IT DOWN INTO THE SHAPE OF THE BODY. LOOSELY WORK IN THE WHEELS KEEPING THE "STANCE" OF THE THING TRUE WITH GUIDE LINES.

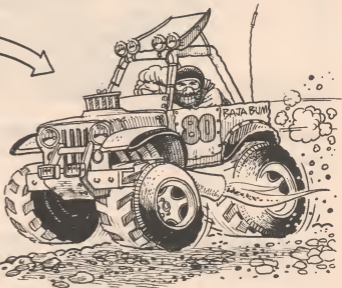

NOW WE START TO DETAIL OUT THE BODY AND ACCESSORIES. PROCEED A LITTLE MORE CAREFULLY NOW AND BEGIN TO GET YOUR PENCIL DRAWING READY FOR INK. SPECIAL CARE SHOULD BE GIVEN TO THE TIRES AND TREAD. CHECK OUT REAL TIRES WHEN YOU GET THE CHANCE.

• KAY... LET'S GET A LITTLE FUNKIER THIS TIME WITH A JEEP. FIRST, BOX THE BODY IN LOOSELY NOTING WHEEL PLACEMENT. ADD A ROLL BAR AND SOME LIGHTS LETTING DETAILS GO UNTIL A BIT LATER. TAKE YOUR TIME WITH THE TIRES AND TRY TO GET THE TREAD RIGHT. GUIDE LINES HELP A BUNCH.

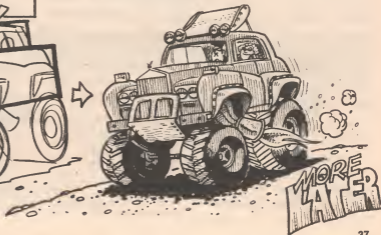

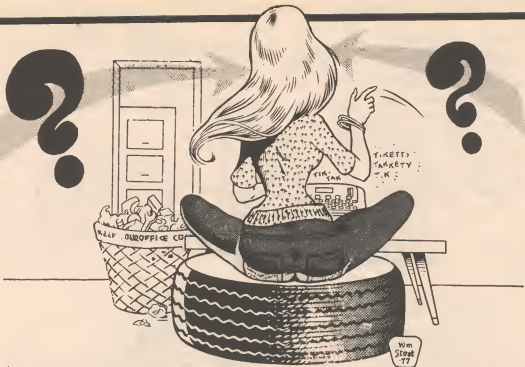

STUDY THE WAY WE'VE BUILT ON THE BOX... ADDING FENDERS AND ACCESSORIES. THE GUIDE LINES LAID DOWN EARLIER MAKE ADDING THE DETAILS MUCH EASIER. THE SAME GOES FOR THE TIRES AND TREAD. NEXT-INK IT IN THEN ERASE ALL THOSE PENCIL LINES! GO!!

OFF ROAD ROLLS

DRAWING ABILITY IS GREAT BUT EVEN BETTER WITH IMAGINATION!!

Ho ho! It's contest time again here at CARtoons, the magazine that fills the void in your car-craving life.

Yes, group, again we present a contest in which you the reader are called upon to:

- (A) Defend to the death, your country?
- (B) Write a hit Rock 'n' Roll song that will make the top 40?
- (C) Draw your idea of what Corresponding Erica looks like?

If you answered C, then you're off to a good start. Yes, gang, we want to see what you think ol' Erica looks like. As you may or may not have noticed, we never see her face in those little drawings on her page. She really isn't a blonde, by the way, but she wanted us to draw her as such.

So, armed with that simple fact, let's see what goes on in that whizzing teenaged brain of yours (those of you who are not teenagers can also enter—big of us, no?). We will print the winners (as we always do) and also print a photo of the REAL Ms. Erica as she appears today.

Leap to the black ball-point pen (no color, please) and whip up your original creation, then send it along to:
